IMPORTERS, MANUFACTURERS AND DISTRIBUTORS OF
CHAIR AND DESK COMPONENTS

About ISA Components

ISA Components was founded in 2002 with the aim of supplying quality components to the office chair and desk manufacturing industry.
The majority of our products are imported from selected and approved manufacturers in the Far East as well as making use of local manufacturers whenever we identify this as a more feasible option.

ISA Components is committed to transformation and is currently re-structuring to meet the needs of the broad-based black economic empowerment act.

Our Vision and Strategy

We aim to establish and maintain our position in the office chair and desk component industry as leading and preferred suppliers. Our commitment to consistent and prompt delivery is supported by our skilled and specialised staff, which remain constantly aware of our customers' needs and deadlines. We also promote continuous professional development and consistently invest in new technologies to remain at the leading-edge of product development.

Our Company Values

A positive client experience with ISA Components is important to us.

- **Partnership** – we regard our customers, suppliers and employees as partners in our business. We value and actively nurture long-term relationships by dealing with both clients and staff with integrity and respect. We promote teamwork and believe in transparency during all interactions.
- **Professionalism** – we are committed to maintaining the highest professional standards in all our business dealings with our clients and between our staff members.
- **Quality** – we are committed to providing the highest quality products and service to each of our clients, to ensure that we maintain our reputation as industry leaders.
- **Innovation** – we aim to remain at the leading-edge of industry innovation and trends. To this end, we frequently travel to trade shows and to our international suppliers. This ensures that we are working with the latest trends and allows us to share international industry expertise with our local clients.
